PROFESSIONAL EXPERIENCE

The Polo Club of Boca Raton

Boca Raton, FL | 2023–Present

IT Manager | 2026–Present

IT Technician | 2023–2025

- Promoted from IT Technician to IT Manager in 2026 — took on more responsibility for the property's IT while still doing hands-on support and infrastructure work.
- Oversee the network infrastructure, systems, and tech operations for 300+ staff across a multi-building campus.
- Assist with planning the IT side of construction and capital projects, including new facility openings and upgrades to retail and operational spaces.
- Manage Veeam backups and disaster recovery, keeping VMs, servers, and firewalls running and backed up.
- Handle Active Directory and Microsoft 365, including user accounts, permissions, and access for staff.
- Support FortiGate firewall, including policy changes and access control through web filtering groups to control what different users and departments can reach.
- Keep CrowdStrike dialed in across all endpoints to keep the security posture solid and catch threats early.
- Troubleshoot the network — switches, access points, VLANs, and connectivity issues across the property.
- Provide hands-on tech support across the property, keep the ticketing system running based on urgency, and train staff on IT basics to cut down on repeat issues.
- Use Endpoint Central, Atera, and Goverlan for remote management, patching, imaging, and fixing systems.
- Work in the Microsoft Teams Admin Center, including the switch from Cisco phones to Teams-based Yealink devices.
- Support POS systems for retail and restaurants, plus iOS work phones, Android digital signage, and small Linux projects.
- Maintain the AV infrastructure, including a Dante system that routes audio and video over IP to endpoints around the facility.
- Coordinate AV with technicians for events — live bands, holiday events, Board of Governors meetings with 16+ mics, town halls, and everyday conference room meetings.

Administrative Assistant — Rivero Real Estate Inc.

Miami, FL | 2021–2023

- Provided tier 1 IT support in a small office, fixing computer, printer, software, and basic networking issues.
- Helped agents and staff with email setup, workstation troubleshooting, document tools, and daily tech needs.
- Referred walk-in clients to agents and helped with routine office workflows.
- Kept documentation and simple troubleshooting guides up to date.

CORE SKILLS

- Identity & Systems: Active Directory, Microsoft 365, Group Policy
- Networking: UniFi wireless, FortiGate firewall, TCP/IP, DHCP, DNS, VLANs, Auvik networks
- Backup & Virtualization: Veeam backup & recovery, VM deployment, snapshots, isolated test environments
- AV Systems: Dante audio/video networking, IP-based AV routing and endpoint management
- Device Ecosystems: iOS & POS devices, Android signage, Linux (small projects)
- Endpoint Management: CrowdStrike, Endpoint Central, Atera, Goverlan
- IT Operations: Project planning & vendor coordination, imaging, deployments, asset management, documentation
- Communication: Cross-department coordination, staff training, working with different teams
